On Wednesday January 17, 2018 at 7:00 P.M. and prior to the regular business meeting there will be a special meeting. This meeting will be for the purpose of discussing and approval of the expenditures for the replacement of the roof over the meeting area, upgrades to the kitchen and equipment and tuck pointing of the brickwork on the west two-story wall.

## What is the New Moose Experience? What are we building?

The New Moose Experience (our temporary project codename) is a facility that is home to a uniquely integrated community experience designed to serve the unmet needs of today's young working families. Under one roof, it unites three high demand service offerings:

1. Shared workspace (also known as coworking).
2. A healthy and delicious kitchen market café.
3. Flexible, learning oriented childcare.

These service offerings will be complemented with educational programs for the community of facility users and guests, as well as outreach programs and supporting services for charitable organizations operating in the surrounding community at large.

## Who is this for?

The New Moose Experience facility has been designed primarily for young working families, especially those that are part of the growing workforce of more than 30 million independent contract employees, freelancers, and small business owners, but it is open to anyone and everyone. Moose has always been about the needs of working families. In order for Moose to continue to grow in relevance and address the needs of families especially those with young children in the home we needed to reimagine and expand our notions of "gathering place" and "membership."

## Is this replacing the Lodges?

No! The New Moose Experience will not replace the current lodges. Instead, it is a fresh, additional way for Moose to engage and become relevant and supportive in the day to day lives of this generation of young families and future generations to come. Even while launching this new direction, however, the Moose is continuing to work on programs and initiatives that will benefit the current membership base, as well as the lodges and chapters that are the lifeblood of our Fraternity.

## When will the first one open?

These New Moose Experience facilities are fast becoming a reality. We anticipate opening the first location in late 2017 or early 2018.

## Where will the first one be located?

Several Midwest locations are being evaluated presently and are under negotiation. We will announce the first location when we have completed negotiations.
